

Customers' Testimonials

"When patients participate in treatment decisions, set personally selected behavioral goals, receive adequate education, and actively manage their disease, improved diabetes control is achieved. This in turn leads to improved patient satisfaction with care, better quality of life, improved health outcomes, and ultimately, lower health costs."

National Diabetes Education Program

"With Nutrihand Pro, you can monitor your patients more closely, make substitutions and changes as their lives change. Patients have much more freedom to live the way they want to live while still following a program.

Nutrihand Pro is indispensable in creating realistic changes in a patient's behavior."

Patricia Booth, MS, RD

Registered dietitian with over 25 years experience
in clinical nutrition and dietetic education

"I just LOVE this website!

It's so much easier to plan and prepare foods without having to manually figure out all the calories/carbs/fat etc!

Plus, I just lost 10 pounds in a month without even trying.
I was so impressed! And the fact that I can follow my dietitian's plans online really motivates me to keep taking care of myself.

Thanks so much!"

Pam B.

"Nutrihand Private Label is allowing us to train our professionals, link them with their patients, enhance quality of care, and even manage our own healthcare costs, once our staff also use the platform for self-management. It is a great concept that was extremely well executed."

Kathryn Sucher, Sc.D., R.D.

Director of San Jose State University,
Nutrition and Food Sciences Department

"Just wanted to let you know that I think this is a wonderful website. I have a plan for my nutrition and exercise needs in one place and can check my progress daily. I am eager to start my new-healthy-life and your website has given me the enthusiasm to take my first steps. Thanks!

The more I use this site and work with it's many features the more I love it. I hope you can keep it here for a long long time. Thanks!!"

Lenora J.

"I love the site. I really needed it too. I have type 1 and I'm a mess. Thanks!"

Kristen B.

"I just signed up for the free Basic plan today and I love this site. I have not had to check my sugar daily and do not take any meds, but I truly want to avoid going there. I am overweight and 50 years old. Thanks for the free plan!"

Carol D

"Your site is wonderful!"

Ethel B

I just love my Nutrihand service and the support. It's like a best friend, just waiting for me to say hello - every time I log on!

Pam B.

Thank you so much for your help!!! Not very many people would go out of there way to help me like that in this day and time. I am going to tell my friends about your service. Again thanks for your help!

Denise

What an amazing idea!

Alicia D

This site is great! Thanks for the free use of it.

Leigh C.

This website is awesome! A co-worker told me about it & I plan on trying it with some of the WIC (Women, Infant, Children) program.

Thanks for making this available.

Rebekah O

I thought this was very user friendly and I am very excited about getting started. Thanks

Karen B.

Today is my first day on this website and I find in very informative. I am looking forward to using this site regularly.

Thank you.

Betty B.

I loved using the program! Thank you!

Laura Z.
